Exclusion Granted Donnerland From Zone Ordinance

Action Of Commission Will Permit Construction On Project

Another step to prepare the way for the proposed development of Donnerland, U.S.A., was taken Tuesday night when the Nevada County Planning Commission voted to exclude 45 acres of land just west of Truckee from the provisions of ordinance No. 207.

The request for exclusion had been made by G. E. Lewis and William Marsh who asked that the land be zoned as A-1 instead of R-1 classification. The latter confines building to single family dwellings, while A-1 permits unlimited building which does not conflict with other sections of the ordinance such as junk yards, foundries, mills and the like. The board of supervisors must now hold hearing and approve the exclusion.

Donnerland, U.S.A., which is proposed by Marsh on the 45-acre tract being purchased from Lewis, will entail a huge expenditure for construction of a variety of items, designed for entertainment, and this would have been impossible under the terms of the ordinance.

At the meeting, the commission discussed the advisability of keeping ordinance No. 207 on the records. It was pointed out that it was designed as an emergency measure to prevent construction of undesirable structures prior to and during the staging of the Olympic games at Squaw Valley.

A more definite ordinance to zone the area is proposed, but must be initiated by the residents of the affected district. The Truckee Donner Chamber of Commerce has requested that ordinance 207 be maintained until such a time as a more stable law can be enacted, but the commission and other county officials point out that this action should be taken soon.

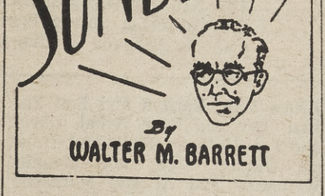
SUNBEAMS



By WALTER M. BARRETT

Weed, a town slightly larger than Truckee but with many problems in common, recently voted by a large majority to incorporate and become a self-governed community. Weed not only wanted to be self governed, but desired to share in lucrative state subventions and to consolidate a number of boards into one central organization for closer community harmony. We believe Truckee would do well to follow suit, but thus far apathy seems to have gripped those who once started out so strongly to bring the issue to a head. We believe that the people of Truckee are awaiting a sensible explanation, pro and con, on the subject of incorporation and will welcome facts. To obtain these facts and present them for a decision will involve a study of the local problems and this can be done only through the employment of an unbiased agency. It is our suggestion that the Truckee-Donner Chamber of Commerce institute such a survey so that we can decide one way or another whether this community would or would not benefit through incorporation. We know of no city that has successfully progressed beyond a given point without being incorporated and we believe Truckee has reached that point. There is no such thing as standing still—we must either go ahead or go back and we certainly do not want the latter. We think the time is ripe for a decision, one way or another. Procrastination will not solve our growing problems.

STRIKES & SPARES
BY JOE WILMAN

"LANE SENSE" WILL LEAD THE TEAM

A bowler has "lane sense" when he knows how and when to make adjustments to meet various conditions. Such a bowler can usually "solve" strange lanes quickly. This sense generally comes out in a bowler only after a great deal of actual experience.

It helps any team to have such a bowler. He can quickly find the 1-3 pocket for his delivery. Doing so allows his teammates to know just how to adjust their own styles to get into the pocket.

Joe Norris, a teammate of mine in Chicago, whose style is shown today, is certainly one of the greatest bowlers with "lane sense" that ever lived. Joe usually bowls lead-off man, and he helps the entire team find a lane. For many years Joe did the same thing as captain of the famous Stroh's team in Detroit.

Other top bowlers who seem to have this "lane sense" to a great degree are Bill Lillard, Don Carter and Ray Bluth.

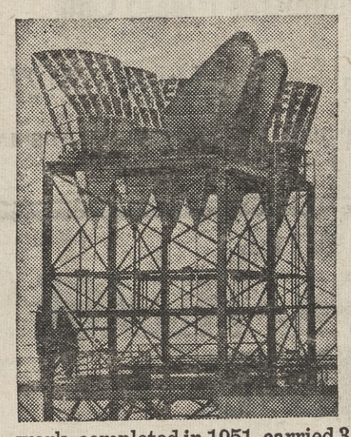
WHAT'S DOING

L. R. deGallery, your Telephone Manager in Tahoe City

The Local Employees of Pacific Telephone gathered together for a dinner Friday, Feb. 24th, at the Crystal Bay Club to honor eleven employees representing 95 years of service. Each of the eleven people received bronze pins designating from 5 through 20 years of individual service. We would like to take this opportunity to introduce these employees. In alphabetical order they are: George Austin, Bob Canlett, Jack Farris, Bob Jorgensen, Dave Keeler, "Tiger" Lorea, Harry McIntire, Millie Mead, Al Pecchenino, Ed Shirley, Clyde Wright.

It was a real pleasure to honor the people of our local area for their fine service. Each one in their respective departments, makes it their responsibility to be sure the customers of Pacific Telephone are served well.

* * * *



The strange, horn-shaped objects in this picture are radio antennas used for long distance phone calls.

Though few telephone users are aware of it, a big share of today's long distance calls travel by radio relay rather than wire.

Its big advantage is that it can handle a huge number of calls. The first coast-to-coast radio relay network, completed in 1951, carried 3,000 phone calls at once. Now a new system has been developed that can take care of 17,500 phone calls simultaneously. It's already in service on part of our transcontinental network, and other installations will soon be made here in the West.

* * * * *

Ever wondered how you hear the phone ring at the other end of the line when you telephone someone?

Actually, you don't hear the other person's phone ring; you hear a ringing machine at the telephone company. (That's one in the picture.)

It rings all the time, sending out evenly spaced ringing signals. When you call someone, signals from the machine make his phone ring. You can't hear this ring, so the machine sends you another ringing sound to let you know that your call has been put through.

This same machine sends you the "busy signal" and the signal you hear if you have accidentally misdialed.

UNEMPLOYED MUST EARN PLACER ORDER

AUBURN — Employable men, who are drawing $5.00 a week grocery orders from the Placer County Welfare Department, after they have exhausted unemployment benefits or other income, will commence earning the $5.00 by scrubbing floors, washing walls, windows, and doing other similar jobs for the county.

This is the plan of County Executive John M. Bernard. The employable men on the list has increased from 25 to 42 in a matter of two weeks.

Man is sustained under all circumstances through an understanding of God's omnipotence. This theme will be emphasized Sunday at Christian Science church services.
Keynoting the Lesson-Sermon entitled "Matter" is the Golden Text from Psalms (73:26): "My flesh and my heart faileth: but God is the strength of my heart, and my portion for ever."
From "Science and Health with Key to the Scripture" by Mary Baker Eddy this passage will be read: "Consciousness constructs a better body when faith in matter has been conquered. Correct material belief by spiritual understanding, and Spirit will form you anew" (425:23-26).
Scriptural selections will include this additional citation from Psalms (56:4): "In God I will praise his word, in God I have put my trust; I will not fear what flesh can do unto me."

JOHN ZIEGLER WILL TRAVEL TO ISLANDS

SQUAW VALLEY — Olympic Village Hotel employee, John Ziegler, on leave from Cornell University in Ithaca, N. Y., is planning to jet fly to the various islands in the Hawaii group immediately following "Snow Turtle week-end" on the 20th.

Having just been named administrative assistant for a top hotel chain in the far away lands, he is looking forward to a fun filled job for the entire summer months. He hopes his return trip to the islands will prove to be as exciting as the time that was had here during the winter.

September should find John and his bride heading back to the eastern seaboard, where he will continue work towards a degree in hotel management.

SKIING SHOW BILLED AT SQUAW VALLEY

SQUAW VALLEY — The Olympic Village is presenting another skiing attraction this week-end titled "So THIS is Sking? . . . a musical comedy in the "after-ski" tradition with a live cast of 30. Showing on both Saturday evening and Sunday afternoon in the Nevada Center Theatre.

LIQUOR LICENSE PLAN IS GIVEN APPROVAL

SACRAMENTO—(CNS) — A bill which would permit inter-county transfer of on-sale and off-sale liquor licenses has met with apparent approval of the senate committee on governmental efficiency.

The bill is 275 by Senator Hugh M. Burns (D-Fresno), introduced at the request of Governor Edmund G. Brown.

No final acton was taken on the bill at its first outing. However, it was amended to provide no licenses could be transferred into counties with less than 35,000 population. This was designed to meet objections from senators from smaller counties.

The bill was rescheduled for hearing March 8, where approval was expected.

California's long dry winter this year is a warning to be careful with fire of any kind, anywhere.

Tips on Touring

By Carol Lane
Women's Travel Authority

Bits and Pieces

Throughout the year, I receive many excellent safety and travel tips from my readers and women I've met during a lecture tour. Here are a few of their choice bits of advice:

If you leave your car outside on cold winter nights, park it with the engine *away* from the wind. Leave the car in gear (or "park" for automatic transmissions), with the handbrake *off*, to avoid freezing.

For daytime driving on snow-covered or icy roads, wear sunglasses.

Contrary to what you may think, rising temperatures make icy roads *more* slippery. With regular tires, a car going 20 miles an hour on glare ice needs 114 feet to stop when the temperature is 0° F. The same car, when the temperature is 30°, needs 235 feet. Best bet: reinforced tire chains. They stop the 20 mph car in about 77 feet, regardless of temperature. So says an expert from the National Safety Council.

On your next trip, use duffle bags to replace extra suitcases. Duffle bags can be crammed into trunk compartment spaces where more rigid luggage would not fit. And they make good laundry bags for soiled clothing.

When you stop the car with the engine running, shift into neutral —so nothing will happen if the driver, or passenger, accidentally steps on the accelerator. This is especially important when you take on, or let off, a passenger.

Be careful if driving with dangling bracelets or full, deep sleeves. They can catch on selector lever or blinker signal arm.

TNT Dance Band and members of the student body attended "Beat 90" at KOLO TV station in Reno last Saturday. The following members of the dance band played: Carl Shusky, Al English, Larry Mandeville, Leonard Watts, Scott Calhoun, Roger Patching, Glenn Patrick, Paul Quartly, Keith Holden, Chuck Metcalf, and director Ross Price.

A CSF meeting was conducted by President Varien Frey Tuesday and plans for the ham dinner were discussed and the initiation date for new members was set.

1961 OFF TO SORRY START ON HIGHWAYS

California drivers were off to a disappointing start in 1961, recording 569 traffic deaths for the first two months of the year, compared to 517 for January and February of 1960.

Highway Patrol Commissioner Bradford M. Crittenden said that deaths in unincorporated areas were up, while fatalities in cities had dropped.

The statewide increase is 10.06 per cent, according to the commissioner.

"Ordinarily, fatal accidents are lowest in the early months," he said. "If the increase is an indication of what the last 10 months will bring, California's 1961 traffic record will certainly be tragic.

"The Patrol will devote every effort to stem this tide, but the primary responsibility lies with the driving public. Only through individual driver awareness of the havoc his mistakes can create will we see a marked reduction in accidents," he concluded.

DONNER DOINGS

By VIRGINIA O'BEAR

DONNER DOINGS .....

Despite the snow flurries that seem to come and go without too much on the ground, people at Donner Lake are still busy with many things. Members of various organizations and committees still meet and carry on in true tradition. We have learned to "take it or leave it" with our weather, many of us enjoying it. Many also state that they will be happy when spring arives in the mountains.

* * *

Fishing season opens the end of this month and there are many anxious fishermen right here at Donner who can hardly wait to get out on the lake. It is really something to awaken the first worning of the season and see all of the boats out in the lake with fishermen in them all bundled up. I'll bet most of them have canned heat of some type to keep their hands warm because it gets mighty cold out there in March.

A surprise party in honor of Mrs. Ivan Wilson was held March 10th at the Church of the Mountains in Truckee. It was a combination birthday and going away party for the president of the W.S.C.S. who will be greatly missed by her fellow members. Sack lunches were brought along with jello and a beautifully decorated cake and while some of the members kept the honoree busy for a supposedly clean-up day, other members prepared the surprise party in the basement. When lunch time was announced, all paraded to the basement where Mrs. Wilson was greeted with "Happy Birthday." The members presented her with philandendron plants in white framework planters, a souvenir Truckee plate and a set of bowl covers. Mrs. Wilson expressed her enjoyment and gratitude to the members for their htuoghtfulness. Mr. and Mrs. Wilson will be leaving Donner Lake around the end of March and will make their home in Tahoe City where Ivan is in charge of the mail route. Those attending the party were Mesdames Lee Apple, Harry Barnes, Rufus Fields, James Harris, Lyle Hubbard, M. C. King, Oscar Schumacher, Roy Slate, Reverand and Mrs. George Symons, Miss Ella Waters and the honoree, Mrs. Wilson.

The Donner Lake Volunteer Fire Department held a regular meeting at the fire house Tuesday evening, March 14th. These busy firemen meet twice a month, the first Tuesday and the fourth Thursday each month. They will be exceptionally busy the next few months as they sponsor the Donner Lake Regatta and have already been busy laying the ground work. The regatta will be on July 9th this year with the champion drivers of the fast little outboards competing for the regional championships. Each year the boat races seem to draw larger crowds as boating is becoming such a popular sport.

Ladies and officers of the Ladies Auxiliary met at the home of Mrs. Eugene Welch Sunday evening for preparing the regular meeting of the auxiliary which will be held at Smart's this Thursday evening at 7:30. After a tour of Gene and Edith's beautiful new home, the ladies took care of business. After this procedure, Edith served a delicious cake with ice cream and coffee which was enjoyed by all, even the ones on a diet! Everyone is looking forward to Thursday's meeting as it is a surprise dinner menu planned by Mesdames Ted Franklin, Richard Quist and Julie Clark. Milla Johnson will delight the guests with her cleverly planed skit with some of the members. All members should try to attend this meeting as it will mostly pertain to the Miss Donner Lake contest and the box social. Try to attend and take a new neighbor.

Horsemen Prepare For 100-Mile Race

Now at spring roundup time, Western States riders are already gathering their horses for training and conditioning in support of their entries for the famous Western States 100 Miles One Day Ride for the Tevis Cup to be held July 29th over the old Western States Trail of the pioneer days crossing the Sierra Nevada between Lake Tahoe and Auburn.

This is the premier annual event horsemen from all parts of the continent look forward to and for which the Tevis Cup award for horsemanship is traditionally like the awards of the Davis Cup in tennis and the Lipton trophy for yachting.

This year much that is new has been added. There will be more entries over even wider areas of America and from several more foreign nations. Count Frederick von Lederbur, who rode last year for Austria will be unable to return this year, but riders for Mexico, Great Britain and Japan are anticipated. Likewise, with the cooperation of the U. S. State Department and Senator Clair Engle, an invitation has been delivered through the soviet embassy for the participation of Russian Cossacks, or other horses and riders representing the Soviet Union. Wendell Robie, president of the Western States 100 Miles One Day Ride, will likewise confer with them in Moscow on April 28th.

Each entry to successfully complete the ride within twenty four hours receives a sterling silver gold mounted award buckle of a copyrighted design, which are prized everywhere as graduate degrees in good horsemanship. The Lloyd Tevis Cup, a perpetual trophy for this event, is an award for especially distinguished merit to the entry to finish with best time, with horse in good condition, as judged by the board of veterans for this event. Tevis was a Sacramento pioneer of 1849 and later served as president of the great frontier transportation firm of Wells Fargo & Co., whose horses, stages, and Express Riders created a great tradition for western horsemen.

From time of entry in the Western States 100 Miles One Day Ride, all horses are carefully checked and controlled with inspection by a supervising Board of Doctors of Veterinary Medicine. Just as the horses and riders each year have contributed new records of speed and condition, so too, the records kept by the Board are looked for as a source of special knowledge to the basic and clinical research studies now being made by the Heart Fund and in several universities.

The special strain of half-breed California horses created in Central California by Captain Ben Taylor of Nevada County, with hot blooded Kentucky horses crossed with tough little Spanish mares, were selected a century ago to stock the stations of The Pony Express. The speed and endurance of its horses and riders provided an adventurous episode in the history of the western United States, which is commemorated today by the fine performances registered each year in the Western States 100 Miles One Day Ride event.

The Ride starts in Tahoe City at 5 a.m. daylight saving time and only total elapsed time counts to the finish line in Auburn. One hour halts are enforced for every entry at three control stations located along the route at Robinson Flat, Michigan Bluff and Ponderosa Bridge for tests and inspection by the Board of Veterinarian examiners. Last year the first riders raced to the finish at 10:30 p.m. with the record time of seventeen hours fifty minutes.

Entries, information and announcements for the July event are being administered by the Western States Ride organization from the City Hall headquarters in Auburn.

BIZZ JOHNSON WILL BE ON COMMITTEES

WASHINGTON, D. C. — Congressman Wayne Aspinall, chairman of the interior and insular affairs committee of the house of representatives, has assigned Congressman Harold T. (Bizz) Johnson of the 2nd, mountain-valley counties, district, to three subcommittees.

Congressman Johnson will serve on the subcommittee for irrigation and reclamation, subcommittee for public lands and subcommittee for national parks.

"I am extremely pleased that Chairman Aspinall selected me to serve on these subcommittees," Congressman Johnson said. "I feel that it is extremely important for the Second Congressional District and its vast program of water development, its thousands of acres of public lands and its four major park facilities, Yosemite, Lassen, Death Valley and Lava Beds."

Congressman Johnson said he would be an active participant in each of these committees in addition to the full committee.

Congressman Johnson's other committee assignment is to the committee on public works where he serves on the flood control and rivers and harbors subcommittees and select committee on interstate highways.

YELLOW TO REPLACE WHITE ROAD LINES

SACRAMENTO — (CNS) — Almost all double white lines on California highways will be painted yellow within the coming year.

The change will be made to conform with a nationwide program to provide uniform highway markings.

State Highway Engineer J. C. Womack said a new U. S. Bureau of Public Roads manual eliminates double white lines as an alternate to yellow lines for separating opposing traffic on multi-lane highways.

California has used the double white lines for more than 20 years. The color will be changed as the present white lines require repainting.

Single white lines will continue to be used to divide traffic lanes.

Yellow lines will be used to designate no-passing zones where traffic is not separated by any physical barrier or else is separated only by raised traffic bars.

The federal manual also calls for change in California's green and white signs which are used to indicate service and rest areas and roadside businesses. In the future, such signs will consist of white reflectorized messages set in a blue opaque background.

NO CHARGE PLANNED AT SUGAR BOWL RACE

There is good news for persons wishing to see the first professional ski race in California, at the Sugar Bowl on highway 40 near Donner Summit on Sunday, March 26.

General manager Ed Siegel announced that there will be no admission charge for the race.

"We feel that an extra admission charge for this race would not be right," said Siegel. "The only charge will be the regular cost of 75 cents each way for all persons using the Magic Carpet from highway 40 into the Sugar Bowl."

Siegel added:

"The Magic Carpet Corporation will then donate a portion of its receipts of Sunday, March 26, into the race fund of the International Professional Ski Racers Association for the Sugar Bowl event.

"That way the racers will benefit from added receipts, and yet the public will be able to see some of the finest skiers in the world without any extra charge."

CAUTION NEEDED TO PREVENT POLLUTION

Residents, business interests and governmental jurisdictions in the Lake Tahoe basin must meet their responsibility of providing adequate sewage treatment and disposal facilities within the next few years if the famous alpine lake is to be saved from the disastrous consequences of sewage pollution that has been ruining lakes, rivers and waterways of the United States for recreational and water supply purposes.

This warning was sounded by Deane Seeger, executive director of the Lake Tahoe Area Council before members of the South Lake Tahoe Rotary Club at their Wednesday evening dinner meeting at Tahoe Harrah's.

WORST SHORTAGE OF WATER SEEN IN YEARS

SACRAMENTO—(CNS) — The department of water resources announced California is heading for its worst water shortage in 30 years.

In its second of four monthly water reports the department said the chances are about one in 25 that precipitation will be heavy enough to produce an average statewide runoff. The areas of the state south of Sacramento are in even worse shape.

"Even with normal precipitation for the remainder of the season, runoff in the area south of Sacramento will be near a record low," William E. Warne, director of the department said.

Runoff in the San Joaquin Valley could be comparable to 1924, the lowest year on record, Warne sad.

"Only in the upper Sacramento Valley and the north Coastal area will water supplies be anywhere near normal," Warne said.

The report said a March and April runoff greater than the maximum of record would be required to achieve normal runoff in most areas of the state.

"This ih the third consecutive dry year, with this one being the worst of three," Warne said. "On the basis of records dating from 1900, these three years challenge the 1929-31 period as being the driest three consecutive years."

A swimming party was enjoyed by two birthday celebrants, Marcia Leamon and Linda Russell on the former's birth date, March 11. A family gathering at the Leamon home that evening, with special cake completed the day. Linda's anniversary will occur March 21.

JOANN WRAY WEDS MYRON McKEEMAN AT TAHOE CHURCH

TAHOE CITY—St. Nicholas Episcopal Church at Tahoe City was the setting for the March 4 wedding of Joann Irene Wray to Myron Dennis McKeeman with Father John Wright, rector from Auburn, California and Rev. Arnold Carlson, vicar of the Tahoe City Church officiating at the rites, attended by 40 relatives and close friends of the couple.

Mrs. C. E. Bosen was the organist during the processional and recessional and the church was decorated with candles and greenery, with a bouquet of pink carnations arranged at the guest book table.

The bride chose a ballerina length dress of silk mist taffeta and chantilly lace, fashioned with a sabrina neckline and full skirt. Her pearl seed crown was attached to a finger tip veil of imported illusion and she carried a lace covered white Bible and orchids. Robt. J. Wray of Tahoe City gave his daughter in marriage.

Judy Hastain, maid of honor wore a gown of blue organza and carried a bouquet of the same hue. Rosemary Wray, bride's maid for her sister, was attired in a gown of pink, with matching bouquet.

Timothy McKeeman acted as best man for his brother and Carl James of Rancho Cordova and Rodger Johnson of Sparks, Nevada were ushers.

A reception was held in the St. Nichols edifice immediately following the nuptials, a three tiered cake centering the decorated table.

Monterey was the destination of Mr. and Mrs. McKeeman, the bride wearing a yellow suit with brown accessories for her going away costume.

Mr. and Mrs. Robt. J. Wray of Tahoe City are the parents of Mrs. McKeeman, where the family is well known and where she attended schools. before going to Sierra Junior College. McKeeman is the son of Mrs. Daniel McKeeman and the late Daniel McKeeman, also a well known family of the Auburn district. The young benedict attended schools there and also was a student of Sierra Junior College. The newly weds are establishing their home at Auburn.

I FORGOT BREAD, SO THEY WENT TO GET IT FOR ME.
ARE THE CHILDREN HOME?
SALLY'S OUT, AND THE TWINS WENT TO THE STORE FOR ME. I WONDER WHY IT'S TAKING THEM SO LONG?
